Colloidal Oatmeal System

Latex Exam Gloves Powder Free, Standard Cuff

GloveOn[®] COATS[®] (colloidal oatmeal system) is a patented and unique latex glove technology, which contains an FDA-recognised skin protectant. These utilise the powerful benefits of all-natural oats as a coating that forms a natural, moisturising barrier between the glove and skin. This acts as a preventative measure against skin irritation and hydration dermatitis. Therefore, users who suffer from dry and itchy skin can now use GloveOn[®] COATS[®] to protect their hands while they work.
